Ambient

Performance Wool Blend Fabric

19 Colorways

Free of Added FR Chemicals

The Burch Design Studio introduces Ambient - an exquisite Italian wool rich in texture and history. Combining artisanal craftsmanship and forward-thinking sustainability, Ambient is woven in Italy from recycled wool blended yarn using remnants and trimmings from local knitwear manufacturers. These uniquely refined blends create an elegant palette of twenty soft and subtle hues. Surprising for such an elevated look, Ambient is inherently resilient with built-in abrasion resistance, stress-free pilling resistance, and commercial-grade seam strength.
