# SEAQUAL INITIATIVE

Burch proudly supports SEAQUAL INITIATIVE™

SEAQUAL INITIATIVE™ works with NGOs, fishermen, authorities and local communities to help clean our oceans. Marine litter from our beaches, ocean floor and surface, rivers and estuaries, is collected by clean-up programs. It is then sorted into different material types and the plastic portion is cleaned and transformed into Upcycled Marine Plastic. Environmentally conscious brands and manufacturers then transform this new, fully-traceable raw material into inspiring sustainable products for every aspect of our lives. Consumer purchasing power is one of the most powerful tools for change. In choosing products containing Upcycled Marine Plastic, you are helping to clean our oceans.

SEAQUAL® YARN was created through a partnership with the SEAQUAL INITIATIVE, by using Upcycled Marine Plastic and 100% recycled polyester from land sources. This unique SEAQUAL® YARN is woven into Burch patterns Calypso, Neptune, and Triton.
